EKSPRES LONAC PRESSURE COOKER

Izrađeno od visokokvalitetnog nerđajućeg čelika CrNi 18/10. Ne postoji bolji način za brže pripremanje zdrave i ukusne hrane od pripremanja u ekspres loncu (proces pripremanja hrane je zatvoren sistem)

- Skraćuje vreme kuvanja i do 70%
- Štedi energiju (akutermno dno omogućava manji utrošak energije, jer posudu zagrevamo na početku dok se ne dostigne željena temperatura, nakon čega smanjujemo dovod energije na minimum)
- Anatomske ručice omogućavaju komfor pri rukovanju i ostaju hladne prilikom pripremanja hrane
- Višestruka sigurnost – 4 sistema zaštite za sigurno i brzo pripremanje hrane (radni ventil, ventil za otpuštanje pritiska, sigurnosni ventil i sigurnosni otvor, tj. otvor za gumu sa strane poklopca)
- Čuva vitamine i minerale (zbog značajnije kraćeg vremena kuvanja i pripremanja hrane, više vitamina i minerala se sačuva nego u tradicionalnim načinima kuvanja i čuva boju, miris i ukus hrane)
- Posедуje svoju luksuznu kutiju

Made of high quality CrNi 18/10 stainless steel. There is no better or faster way to prepare healthy and tasty meals than in a pressure cooker (closed system cooking process).

- Cooking time reduced up to 70%
- Saves energy - heat accumulation bottom ensures lower energy consumption as the cooker heats up at the start until desired temperature is reached, then we bring heating source to minimum
- Ergonomic handles provide comfortable handling and stay cool during cooking process
- Multiple safety - 4 protection systems for safe and fast food preparation: operation valve, pressure release valve, safety valve and safety hole on the side of the lid
- Vitamins and minerals are preserved as well as natural colours and aromas of the food due to much shorter cooking time compared to conventional cooking
- Packed in a colour gift box
